

LOG BOOK

CO-CURRICULUM FOR TABLE TENNIS

**SEMESTER 3
SESSION 202501**

Students' Information

				
Name	:	Ethel Ng Yi Yan	Kit Chin Jie Ying	Gan Khai Li
Student's Reg. No	:	24WMR08861	24WMR08870	24WMR08863
I.C No	:	040724-13-0510	041004-14-0782	030329-01-0018
Telephone No	:	011-10152111	011-11159949	018-7710395
E-mail	:	ethelnny-wm22@student.tarc.edu.my	kitcjy-wm22@student.tarc.edu.my	gankl-wm22@student.tarc.edu.my
Programme	:	Bachelor in Data Science	Bachelor in Data Science	Bachelor in Data Science

Part	Marks		
I. Rules and Regulations (25 marks)			
II. Current Development and Issues (25 marks)			
III. My Personal Activity Log (30 marks)			
IV. Reflections (20 marks)			
TOTAL :			

Performance Evaluation

Throughout the practical session, the performance of all the students who enroll in the co-curriculum course will be evaluated through marks and graded. However, the grades will not contribute to the GPA and CGPA.

Games/Sports & Cultural courses are evaluated based on the following:

- i. Attendance 20%
- ii. Log Book 20%
- iii. Involvement 10%
- iv. Achievement 10%
- v. Technical skills 40%

Attendance

1. Students who are absent from the Co-curriculum course and present a letter/proof of the reasons stated below will be considered present with a remark:
 - a. Medical Certificate (MC)
 - b. Represent TAR UMT for external events
 - c. Death of **IMMEDIATE** family member
 - d. Leave of absence approved by Faculty
 - e. Skip letter approved by Deputy Director/Director of DSA or Branch Campus Head
2. Students who are absent with the reasons below will not be considered present:
 - a. Involvement in club/societies/school activities
 - b. Personal matters

Course Content/ Lesson Plan (to be given)

Lesson 1	Rules and regulations, history and current development of table tennis Basic hand-eye coordination, ball balancing and bouncing
Lesson 2	Footwork Standing posture
Lesson 3	Basic serve
Lesson 4	Forehand stroke drill
Lesson 5	Skill Test 1 – Service Games
Lesson 6	Spin - Shadow movement - Backhand block drill
Lesson 7	Spin generating movement Spin service drill
Lesson 8	Counter-Spin generating movement Spin return drill
Lesson 9	Single play
Lesson 10	Double play
Lesson 11	Skill Test 2 – Forehand Drive and Backhand Block Games
Lesson 12	Co-Curriculum Competition Day

I) Rules and Regulations (25 marks)

Rules and Regulations of Table Tennis (15 marks)

First of all, The table tennis game is played up to 11 points, while a player must win by at least
two points. To start a tennis game, A player should serve the ball at least 16 centimeters
vertically, and the ball should strike behind the baseline and above the table level. The server
must keep the ball visible to their opponents all time throughout the serve. If the ball touches
the net but still lands correctly, it is a let serve and must be replayed. A player scores a point
if the opponent fails to make a correct service, and fails to return the ball. Besides that, a player
also scores a point when their opponent strike the ball out of the bound, allows the ball to
bounce more than once on their side as well as the opponents hit the ball before it bounds on
their sides. For a single player game, the serve does not need to be played diagonally, but the
serve should be played diagonally. Lastly, the bat of table tennis can be any size, shape, or
weight. However, the bat should be verified by the International Table Tennis Federations.

(130 - 150 words)

Draw the Table complete with measurements. (10 mark)

II) Current Development and Issues in Table Tennis (25 marks)

Choose an article on any current issue (regarding table tennis) and attached. (from any media) and attach together (newspaper cut-out / webpage save as pdf). Discuss and write your personal opinion regarding the issue in 180 – 200 words.
This article reports on Malaysia men's doubles table tennis players defeating the world No.1
China players in the quarterfinals of the Asian Table Tennis Championships, successfully
advancing to the semifinals and making history for Malaysia.
As a Malaysian, I feel proud of this table tennis match. It truly showed the spirit of
perseverance and fearlessness in sports. Despite facing the world's top-ranked team, our two
athletes remained calm and confident. They were not intimidated by their opponents' rankings
or strength but instead gave their all with unwavering determination. Their strong fighting
spirit and teamwork allowed them to showcase great competitiveness. By fully utilizing their
strengths, they made an incredible comeback, which was truly inspiring. This match also
deepened my understanding of the importance of tactics and technique in table tennis. The
victory was not just about mental toughness and strong willpower, it was also due to their
outstanding strategic and technical abilities. The Malaysian players controlled the game's pace
with precision, adjusted their strategies flexibly, and seized key moments to strike decisively.
These elements helped them break through their opponent's defense and laid the foundation
for their win. This match was more than just a victory; it was a testament to the power of
resilience, strategy, and skill. It reminded me that in sports, as in life, determination and
adaptability can lead to success, even against the toughest challenges.
Seeing Malaysia's table tennis men's doubles players successfully defeat the world's No.1
China's men's doubles team makes me feel extremely happy and proud. As everyone knows,
China's table tennis level is world class. However, our athletes did not feel intimidated when
facing them. Instead, they gave their all to fight for this honor for the country. In the end, they
managed to defeat the world's top players proving that dedication and perseverance can lead to
extraordinary achievements.

I believe that this competitive spirit is something we should all learn from when facing strong
opponents, we should not choose to give up but instead give our best effort. The final outcome
should be determined by our own efforts. Although they ultimately won a bronze medal, this
is still significant achievements for our country and a stepping stone toward future success.
Their performance has shown that our country's athletes have the potential to compete at the
highest level. With continued effort, I hope that our country's table tennis athletes can achieve
even greater milestones in the future tournament.
This victory is not just about a medal, it is about inspiring future generations of athletes to
believe in themselves and strive for greatness. I also hope that more people will pay attention
to our table tennis players and support this sport, helping it grow and thrive in our country.
As a Malaysian, hearing this news filled me with immense pride and excitement. Watching our
men's doubles table tennis players making history by advancing to the semifinals is not just an.
incredible achievement but also a significant milestone for Malaysian table tennis. Their
commitment, resilience, and relentless effort have placed Malaysia on the international stage,
showing that our athletes possess the talent and determination to compete with the best in the
world. This breakthrough is quite meaningful, as Malaysia has not been a dominant force
in table tennis. Countries like China, Japan, and Germany have long been the powerhouses of
the table tennis sport, consistently dominating at the highest levels. Reaching the semifinals in
such a competition is no easy feat, and it's a testament to the hard work and determination
of our players. They've already made their mark and inspired a new generation of young
athletes to pursue their dreams, no matter the odds. This success teaches us valuable lessons
in perseverance, dedication, and the power of believing in oneself. It reminds us that with
determination and hard work, we can challenge the giants and carve out our own path.
Regardless of the final result, their achievement has already proven that Malaysia has what
it takes to challenge the top table tennis nations. I fully support them as they continue to push
boundaries and elevate Malaysian table tennis to new heights. I am eager to see them achieve
even greater success in future competitions, showing that this is just the beginning of their
journey to greatness and success.

(哈萨克·阿斯塔纳12日综合电) 大马“棋子组合”上演惊天大冷门，勇闯四强！

亚洲乒乓球锦标赛男双8强赛今日开打，大马世界排名第187的“棋子组合”黄祺燊与钟子毅挑战中国世界排名第一的“双林组合”林诗栋与林高远，尽管第三局曾以0比11惨败，但棋子组合最终却力拼五局以3比2勇挫双林组合，创造历史杀进四强。

大马乒乓队在本届亚锦赛已全军覆没，唯独黄祺燊与钟子毅这组男双继续前进，他们昨日在16强以3比2淘汰韩国的张禹珍与赵大成。张禹珍在2023年世锦赛与林钟勋获得男双银牌，而赵大成与李相秀则获得铜牌。

钟子毅（右）与黄祺燊淘汰中国的世界第一组合，爆出惊天大冷门。（马新社档案照）

不过，他们在今天面对的对手是个人世界排名第3的林诗栋和第8的林高远，这对中国组合世界排名第一，实力强劲。反观钟子毅世界排名第307，黄祺燊排名第365，两组球员的实力差距显而易见，赛前几乎无人看好大马组合能取胜。

比赛结果却令人震惊，黄祺燊与钟子毅以3比2逆袭战胜了“双林组合”。棋子组合在首局以11比8先下一城，但随后两局展现了双方实力的差距，林诗栋与林高远分别以11比2和11比0连赢两局，成功反超。

值得一提的是，在“双林”第三局打出11比0后，微博迅速上了热搜狂吹一波，尴尬的是，对手即便第三局一分未得，但随后却仍顽强逆转

就在观众们以为“双林组合”将再胜一局锁定胜局时，黄祺燊与钟子毅在第四局和第五局以11比8、11比7顽强反击，完成了惊天逆转，战胜了世界排名最高的中国男双组合，爆出大冷门。

棋子组合将在半决赛硬碰新加坡组合冯耀恩与郭勇，上演东南亚打比战。新加坡组合在另一场8强赛以3比2淘汰日本组合张本智和与松岛辉空。

在另一个半区，梁靖昆与徐瑛彬以1比3不敌日本组合户上隼辅与篠冢大登，这也意味着中国男双在本届亚锦赛集体无缘四强。日本组合将与韩国的林钟勋与安宰贤争夺决赛资格，后者以3比2逆转香港组合陈颢桦与黄镇廷。

IV) Reflections (20 marks)

What did we learn from this course? (10 marks)
This table tennis course provided a comprehensive foundation in the sport, covering its history, fundamental rules, and current developments. We developed essential skills such as hand-eye coordination, ball control, footwork, and proper standing posture. Through structured drills and skill tests, we practiced both basic and advanced techniques, including forehand and backhand strokes, spin generation, counter-spin strategies, and various serving techniques to control the ball effectively and gain an advantage. Additionally, we honed our ability to receive and return different spins and shots from opponents, improving overall gameplay dynamics. We explored both single and double play strategies, enhancing tactical awareness and coordination. At the end of the course, we had built a strong technical foundation, deepened our understanding of spin mechanics, and gained valuable experience in competitive play, preparing us for further improvement in table tennis.
What should we do to further develop our soft skills and technical skills? (10 marks)
To further develop our soft skills and technical skills in table tennis, we should focus on continuous practice, strategic learning, and personal development. Regular drills on footwork, spin control, and stroke consistency are essential for improving technical skills, along with practicing against different opponents to adapt to various playing styles. Watching professional matches and analyzing techniques can deepen our understanding of advanced game play, while maintaining physical fitness through agility, reflex, and endurance training enhances overall performance. Additionally, soft skills such as communication, teamwork, and sportsmanship play a crucial role, especially in doubles play. Developing mental resilience, focus, and strategic thinking will help us handle pressure during matches, while engaging in coaching sessions, seeking feedback, and setting personal goals can further refine both technical and interpersonal abilities. By continuously working on these aspects, we can achieve well-rounded growth and improvement in table tennis.
